Market Overview

Traders are closely watching the Federal Reserve's statement for signs of when the central bank will start cutting interest rates. The Fed's policy statement released on Wednesday included several adjustments, deleting the phrase "additional policy firming," but indicating that the Fed is not considering further interest rate increases but is not yet ready to cut interest rates. Powell appeared to temper market expectations for a rate cut in March, citing the need for more encouraging inflation data. "Based on the meeting today, I would tell you that I don't think it's likely that the committee will reach a level of confidence by the time of the March meeting to identify March as the time to do that. But that's to be seen," Powell said.

Hong Kong Stock Connect had a net outflow of HK\$0.63bn on Wednesday, of which Meituan (3690) had the largest net inflow, reaching HK\$0.25bn; followed by CCB (939). Tencent (700) recorded the largest net outflow at HK\$0.35bn, followed by Xiaomi (1810).
